FACULTÉ DE
MÉDECINE
& MAÏEUTIQUE

Towards a common goal: an enriching experience for you!

You have wished to move to the FMM (Faculty of Medicine & Maieutics): all the teaching and administrative teams are happy to accompany you in this process of discovery.

The months that you plan to spend with us will be months of work and an important moment of life, of experience sharing, which we hope will be as pleasant as possible.

You will follow your practical training in the Groupement des Hôpitaux de l'Institut Catholique de Lille (GHICL). During these internships you will meet students from other health training courses, you will discover new ways of understanding medical care, different ways of functioning of health care structures, which will contribute to enrich your learning.

You will also be able to observe project approaches in clinical research, a scientific approach with an ethical concern, and participate in their implementation.

Thank you for choosing the Faculty of Medicine & Maieutics, we remain at your disposal to accompany you for the time necessary.

Patrick Hautecoeur,

Dean of the Faculty

Isabelle Vaast,

Maieutics Assessor

Introduction

The Catholic University of Lille (France), founded in 1875, has 5 faculties including the Faculty of Medicine and Maieutics (FMM), 18 "grandes écoles" and institutes and a 1000-bed hospital group (GHICL). It's the largest private non-profit faculty in France, with 34,000 students, including 1,450 at the FMM.

The excellence of its reputation is due to its innovative and interactive teaching methods, with its pedagogical research centre "prismm.univ-catholille.fr".

The Catholic University of Lille was one of the pioneering universities in the field of international mobility. In keeping with its tradition, it benefits from intense international activity due to partnerships with numerous universities on all continents, including 50 partner universities for the FMM.

You have chosen the Faculty of Medicine and Maieutics (FMM) of the Catholic University of Lille : Welcome to us!

You are going to carry out a stay abroad as part of your studies thanks to the European ERASMUS+ programme and/or inter-institutional agreements.

In order to facilitate your stay, during which you will be immersed in French culture within our faculty and hospitals, and to benefit from it, we suggest you read the following notes and advice carefully.

Each international mobility program is managed for each student to optimize the quality of his or her welcome and the pedagogical quality of his or her stay at FMM.

For any information, please do not hesitate to contact Karine Zaborowski, ERASMUS coordinator and in charge of international relations at the FMM: karine.zaborowski@univ-catholique.fr

Admission and registration procedures

Learning agreement

The "**learning agreement**" is **your guideline**: it has been validated between the Erasmus coordinator, in charge of student mobility at your home faculty, and the MMF Erasmus coordinator.

It summarises your training requests and their dates. It has been drawn up so that your wishes are compatible with the content and planning of the courses and/or the dates of hospital internships proposed by the MMF.

This document must be finalized and reach the FMM at least 6 months before the planned date of your stay.

As soon as you arrive: you must go to the International Relations Office (FV10) on the ground floor of the FMM at 56 rue du Port, 59000 Lille in order to register.

AGORA: the tool for your registration

AGORA is the common intranet for the students of the Catholic University of Lille and therefore for the students of the FMM. You will find the catalogue of all the courses, information on conferences, seminars, and all the activities of the FMM and the University.

All the information concerning possible changes of course dates, internships or exams are on this site, the faculty is not in charge of informing you individually.

When your registration to the FMM is officially validated, you will automatically have access to **the AGORA platform**. You will benefit from a private messaging system thanks to a **password that will be automatically sent to you**. Your private e-mail address will be available throughout your stay, according to the following model: lastname.surname@lacatho.lille.fr.

It is necessary to provide AGORA with your contact details: postal address in your country of origin, the address of your accommodation in Lille as well as your telephone number and the contact details of the person in charge of international relations at your home university (name, e-mail address, telephone number).

Required documents to validate your registration

You must upload the following documents to AGORA:

- Identity document,
- Photo (JPEG format)
- Last transcript of records,
- Resume,
- Cover letter,
- Certificate attesting to your language level (minimum) B1 in French
- Official letter of nomination from your university
- European Health Insurance Card (for European students)
- NOMINATIVE Certificate of Liability Insurance (for ALL students)

Registration schedule and student card

Your registration can be taken into account if the above elements are filled in on the AGORA platform:

- **Before 15 June** for a stay during the autumn semester or a whole year (from 01 September to 31 January)
- **Before 15 November** for a stay during the spring semester (from 01 January to 30 June).

A **student card** will be given to you by the international relations office upon your arrival. It will give you access to the University buildings, the FMM, the university restaurants and all the advantages reserved for students.

Language level

The minimum level required in French for your stay at the FMM is **B1**.

Courses are given in French. Also at the hospital, the supervising teachers will address you mainly in French. (We indicate in the "Internships" section of this guide the services that practice English).

On your arrival, you will be given, if you wish, a small glossary of essential medical terms.

Mandatory health insurance

MEDICAL CERTIFICATE

The French government asks universities to check the health of foreign students. Consequently, we ask all registered foreign students to fill in the form (in the appendix) with a doctor before their arrival in France, and to hand it in to our University Health Centre before their arrival (by email) or on arrival (directly to the CPSU).

This procedure is mandatory to register.

The document is attached to the guide and will be sent to you by email.

It is MANDATORY to be filled in and sent back to the address: cpsu@orange.fr

> Please indicate your surnames, first names and your registration with the FMM.

HEALTH INSURANCE

- **For European students:** you must scan your European Health Insurance Card on AGORA.
- **For international students:** we need a health insurance certificate concerning you as well as a compulsory repatriation insurance. The date of validity of the insurance must cover your entire stay at FMM.
- **For ALL STUDENTS:** you MUST take out a PERSONAL CIVIL LIABILITY insurance. The date of validity of the insurance must cover your entire stay at the FMM.

SOCIAL SECURITY

You can also register for a stay of more than 3 months with the French health insurance, called "Social Security". This is free of charge. And allows coverage of certain medical expenses in France: <https://etudiant-etranger.ameli.fr/> (in annex)

Theoretical education (courses)

The academic year is divided into two semesters

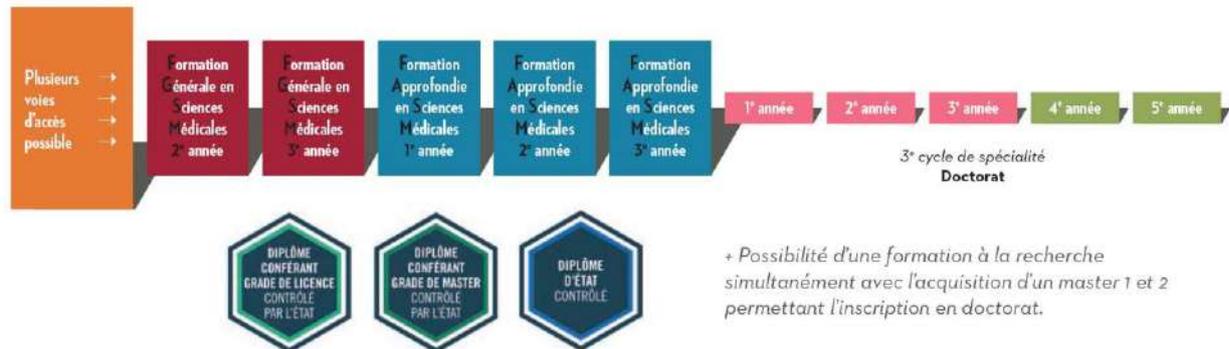

Autumn semester: from 01 September to 31 January

Spring semester: from January 1 to June 30

During the summer period (July-August): teaching activity in hospitals is slowed down with fewer supervisors and **the administrative services of the faculty are closed from the end of July to mid-August.**

During this period, however, you will be able to contact a responsible person, whose contact details will be given to you, to help you solve any problems you may have.

"Medicine" path the FMM

Teaching schedule : see tables in the annex.

For all years of study, teaching is organized in modules (theoretical teaching modules).

Each module consists of several "course units" which correspond to different disciplines. For example, the module "*theoretical teaching 1*" consists of the following course units (disciplines): *cardiology, vascular surgery, pneumology, traumatology...*

The student cannot choose to take course units with overlapping dates and times: you may choose 1 or more course units (disciplines) within the same module.

The programme of the course units you will follow must be defined in advance in the « **learning agreement** » established BEFORE your arrival with the person in charge of international relations at your institution.

Pedagogy

All courses take place at the faculty and are taught in French.

The teaching method is interactive: you are advised to study the course subjects beforehand so that you can actively participate in the discussions and exercises.

You can access and use "I-campus", a computer platform where you can find certain courses and consult documents related to these courses: <https://icampus.univ-catholille.fr>

Your AGORA login details are required to access them.

Looking for your classroom?

Find it with the online schedule on :

<https://planning.univ-catholille.fr/20192020/invite>

Instructions for use :

- 1) Click on the link
- 2) Top left, go to "promotions".
- 3) Next to it, there is an icon in the shape of a loupe: type "FMM" > you will see all the promotions. You will be able to choose yours and the courses you are looking for.

Teachings and practical internships

At the Faculty

You can benefit from specialized teaching by simulation on high-tech mannequins. This tool, called "Prismm" is intended for all student promotions for the acquisition of skills and the realization of practical gestures : <https://prismm.univ-catholille.fr>

Hospital internships

The GHICL means: Groupement Hospitalier de l'Institut Catholique de Lille. It groups together several establishments / clinics and hospitals. Depending on your choice of disciplines and internships, you will be located either at Saint Philibert Hospital (SP) or Saint Vincent de Paul Hospital (SV).

Organization of the internship

The program of the internships must be defined in advance in the "**learning agreement**" established BEFORE your arrival with the person in charge of international relations in your institution. As the number of students in each department is limited, no changes will be possible after your arrival.

In the departments marked with an asterisk you will be able to benefit from language assistance in English.

Internships are not remunerated. Transport to and from the hospital will not be reimbursed.

On arrival you must report to the secretariat of the department in which you will do your internship.

It is necessary to bring a white coat and a stethoscope.

Any internship in a given discipline has a minimum duration of weeks (35 hours of presence per week) and a maximum of 8 weeks. It takes place from 8 or 9 am to 5 or 6 pm.

You must choose each service for a minimum of three consecutive weeks.

Evaluation of your internship

The evaluation of the internship will take into account your skills, your attitude, your punctuality and your motivation in a hospital environment because you will be immersed in the professional world and subject to its rules.

Before the beginning of your internship, the FMM International Relations Officer will give you an evaluation form on which your level of education and the duration of your internship will be specified. **You will have to give it to the responsible of the hospital department for validation and comments.**

This original document (*photocopies are not accepted*) is then to be hand delivered to the FMM International Relations Office.

ECTS and Validation

Theoretical courses and practical placements are assessed for ERASMUS students in ECTS credits according to European standards. ECTS credits are awarded on the basis of 60 credits per academic year (including theoretical and practical teaching).

Validation of theoretical teaching

For ERASMUS students, each course unit is assigned ECTS credits.

ECTS credits are allocated to a course unit in a given discipline, not to individual courses. As a reminder, a module is a set of course units.

In order to be awarded ECTS credits, the student must comply with the evaluation rules prescribed by the institution. It is not sufficient to simply participate in the courses.

The student must submit to the evaluation rules prescribed by the host institution.

The number of ECTS credits awarded to the student is a fixed number and is the same for all students who have passed the evaluation.

The quality of the student's work is expressed in grades.

Ranking ECTS

ECTS Note	Definition
A	EXCELLENT - outstanding performance with only minor errors
B	VERY GOOD - above the average standard but with some errors
C	GOOD - generally sound work with a number of notable errors
D	SATISFACTORY - fair but with significant shortcomings
E	SUFFICIENT - performance meets the minimum criteria
FX	FAIL - some more work required before the credit can be awarded
F	FAIL - considerable further work is required

The allocation of credits is associated with A, B, C, D, E but not FX and F

Transcript of records

The "Transcript of Records" will be prepared at the end of each semester, after evaluation of course units and hospital placements. It will be given to you and also transferred to the head of your home institution. The indicative delivery time is 3 to 6 weeks after the end of the semester. It can be sent by post to the address indicated on Agora.

The exams

Different course units (disciplines) take place every semester.

The exams take place in the form of MCQs (Multiple Choice Questionnaires) or progressive files: these are specific evaluation methods that are explained to you during conferences organised by the FMM (planning on Agora).

You must register on Agora for the courses in order to be automatically registered on SIDES, our computerized examination platform.

You will take your exams either on a digital tablet (with SIDES) or on a written copy.

Concerning your SIDES account, it's important to log in as soon as your accounts are created and to practise the exercises provided. **Make a note of your login and password so that you can enter them on the day of the exam.**

You will have the same time per exam as French students.

It is possible to have an Anglo-French dictionary checked before each test to avoid fraud.

The results will be sent to you by email. They will be available at the international relations office on request.

In case of failure: If you do not obtain the average (less than 10/20), a make-up exam is organised with specialist health professionals.

This is a 15-minute oral test during which you will have to answer a question or discuss a clinical case. You will have 15 minutes of preparation time before the test.

These oral "rattrapages" are organised approximately one month after the exams. Precise information on the dates will be available from the beginning of the school year on Agora.

These rattrapages are evaluated as strictly as the written exams. It is recommended that you prepare them seriously.

We recommend that you do not take your return tickets until you know the dates of these rattrapage orals.

Validation of internships

Only the faculty is authorised to validate the traineeship and to allocate ECTS credits to it according to the evaluation sheet you will have submitted. The evaluation sheet must be the original, copies are not accepted.

Each full week of internship is equivalent to 1.5 ECTS.

ECTS credits are only allocated if the week of the traineeship is complete. No additional credits will be allocated if one or more additional days are completed.

On the transcript of records, only the number of weeks of internship will be reported, not the number of hours.

It is recommended that you keep a copy of the internship evaluation sheets on which the number of weeks of internship completed is indicated.

In case of unjustified absence or repeated delays, the internship will not be validated.

PRACTICAL INFORMATION

General presentation

www.univ-catholille.fr/en/node/50 <https://lesfacultes.univ-catholille.fr/en>

Health

The CPSU, a university health centre, is at your disposal at 67 boulevard Vauban for all consultations of general medicine, psychologist and social worker as well as for the update of vaccinations.

Feel free to contact: <https://lesfacultes.univ-catholille.fr/fr/sante-CPSU>

Mission Reception Disability

A counsellor is at your disposal to accompany you in your path within the faculty: **Brigitte Boughaba** > brigitte.boughaba@univ-catholille.fr

Transport

You can benefit from student rates up to the age of 25 years in all transports : (metro/bus/tramway/train) with a youth pass:

www.ilevia.fr/fr/4-25ans/14-4a-25ans-mensuel.htm

How to get to the FMM

By bus

- By line 12 or line 5, Boulevard Vauban/Université Catholique de Lille stop
- By line 18, stop rue de Toul

By metro

- Line 2: Cormontaigne or Port of Lille stops
- Line 1: Gambetta stop

V'Lille : (self-service bicycle hire) www.vlille.fr

Housing and cost of living in Lille

The French Ministry of the Interior advises a minimum budget of 615€ per month to live in Lille. **We advise a higher threshold of 800€ per month.**

The cost of accommodation is relatively high: you need to make arrangements in advance in order to benefit from a "good plan" or to find a flat share.

You will be asked for many documents and guarantees to obtain a rental: *prepare at least 3 pay sheets from your parents, financial guarantees and a certificate of registration with the FMM.*

Important (and very useful): a free service is at your disposal for your installation in Lille. It is the "Livin'France" platform: <https://lavin-france.com/school/lesfacultes.univ-catholille>

There are also other rental offers: <https://lesfacultes.univ-catholille.fr/fr/logements-etudiants>

Catering

4 university restaurant chains are available within a 5-minute walk from the FMM. Opening hours are from 11am to 3pm and 6.30pm to 8.30pm from Monday to Friday lunchtime.

The rate is 3.25€ per meal. More information: www.asso-aeu.fr

Where to study your courses?

Work rooms are reserved for FMM students Monday to Friday from 7:30 am to midnight, Saturday from 7:30 am to 8 pm and Sunday, holidays and bridges from 8 am to 8 pm.

The University Library (BU) is open Monday to Friday from 8:30 am to 8 pm and Saturday from 8:30 am to 5 pm at 60 rue du Port in Lille with work rooms available.

Catalogue available on: <http://LoL.univ-catholille.fr>

Sports activities

A gym and fitness room is open to all near the FMM at 48 Boulevard Vauban, Monday to Friday from 7:30 am to 9:30 pm.

Contact: Association d'Entraide Universitaire (AEU) at 47 Boulevard Vauban www.asso-aeu.fr

Tips in Lille!

In order to better prepare for your arrival, you will find below some useful links to guide you:

- **To take French or other foreign language courses:** www.flsh.fr/lettres-et-sciences-humaines/clarife
- **A system of mentoring and meetings between local and foreign students within the FMM** is organized during the "Welcome Session" in September and January: they allow to meet foreign students from other faculties (humanities, political science, economics and management, etc.).
- **The Corporate Association of Medical Students (ACEM) and the Corporate Association of Midwifery Students (ACESF)** organize sports activities, student parties, outings and cultural activities in the Lille metropolis, conferences, events and humanitarian actions (blood donation, Sidaction, Telethon...).
<https://fmm-catholille.fr/associations>
<http://acesf.e-monsite.com>
- **Meet other international students hosted at the Catholic University of Lille**
www.facebook.com/groups/613976295735879
- Discover also addresses recommended by people from Lille on **the "USE IT Map of Lille" to discover the city in an alternative way!**
www.facebook.com/useitlille

Welcome Session

A welcome session for foreign students takes place at the beginning of each autumn and spring semester: an opportunity to better discover the environment of your Faculty of Medicine and Maieutics and the Catholic University of Lille as well as the other students.

	Theoretical teachings 1 (40 h - 5.5 ECTS)		Clinical elective 1 (210 h - 8 ECTS)		Theoretical teachings 5 (30 h - 3 ECTS)		Dermatology (35 h - 4 ECTS)		Psychiatry (35 h - 3 ECTS)		Theoretical teachings 6 (210 h - 8 ECTS)		Clinical elective 6 (210 h - 8 ECTS)		Cancerology (40 h - 4 ECTS)		Haematology (35 h - 4 ECTS)		Palliative Care (20 h - 2 ECTS)		Clinical elective 7 (210 h - 8 ECTS)		Theoretical teachings 7 (60 h - 4.5 ECTS)		Paediatrics (60 h - 5.5 ECTS)		Geriatrics (20 h - 2.5 ECTS)																																								

FASM 1 & FASM 2 : digital exams on tablets during the last week of each theoretical teachings period.

Reminder : The student cannot choose to follow the teaching of course units with superimposed dates and schedules; you can choose 1 or several course units (disciplines) within the same module.

Usage and names of courses on Agora

To help you find your way around when choosing your courses on Agora (only in French):

1. You must only choose the courses and training courses mentioned in your "Learning Agreement".
2. Courses are classified by years of study: FASM1 / FASM2....then by discipline: paediatrics, urology...
3. The lectures are NOT courses: you can register to attend them but they do not give access to possible ECTS credits.
4. The Erasmus Internship (« Stage Erasmus » in French) is to be selected at the very bottom of the drop-down list.

On arrival, you are asked to make an appointment at the FMM International Relations Office to check your choices on Agora.

Course names on Agora

- Pneumology = « Système respiratoire »
- Cardiology = « Système cardio-vasculaire »
- Neurology = « Système nerveux »
- Ophthalmology and otolaryngology = « Spécialités Faciales »

For the other disciplines, the designations are identical than the traditional name of the field.

It is mandatory to fill in this medical form (English OR French version) for your admission to the Université Catholique de Lille. Kindly note that this medical check will not affect your admission to the University, it is for public health purposes only.

Please have this document filled in and signed by your doctor and:

- Either send it to cpsu@wanadoo.fr (you will receive an notification of reception by email)
- Or give it on arrival at our University Health Centre, CPSU 67 boulevard Vauban 59000 Lille

This document will only be consulted by the University doctor.

If you do not show this document on arrival, you will have to book an appointment for a health check at your own expense. This mandatory health check will cost you around 25€. Also if need be, you might have to have further examinations with additional non-reimbursed expenses.

If you have a disability that requires special assistance or if you have specific learning arrangements at your home university, please contact our University Doctor directly.

- Attestation d'autorisation parentale (- de 16 ans)

- IBAN

- Pièces complémentaires à déterminer selon le pays d'origine

2

Je crée mon espace personnel

Je télécharge mon attestation provisoire d'affiliation à la Sécurité sociale

Je dépose les pièces justificatives manquantes ou non conformes dans mon espace personnel

Dès que je reçois un message m'attribuant un NIR...

... je peux télécharger mon attestation définitive d'affiliation à la Sécurité sociale

PRÉSENTATION DU SITE INTERNET DÉDIÉ

Afin de bénéficier de l'Assurance Maladie tout nouvel étudiant étranger doit s'inscrire sur le site internet prévu à cet effet :

etudiant-etranger.ameli.fr

Cette démarche est à effectuer obligatoirement une fois arrivé sur le territoire, et après l'inscription auprès du l'établissement d'enseignement supérieur

Ce site internet dédié - disponible en français, en anglais et en espagnol - est accessible grâce à une aide en mandarin et en arabe, constitue un espace de dialogue privilégié entre les étudiants étrangers et l'Assurance Maladie.

3

Une fois mon affiliation finalisée, je réalise des actions complémentaires afin d'être remboursé de manière plus simple et rapide

J'ouvre mon compte personnel ameli sur ameli.fr ou via l'application ameli

Je demande ma carte Vitalité en fournissant mes pièces justificatives :
- photo d'identité récente
- pièce d'identité

Je déclare un médecin traitant lors d'une consultation, auprès d'un médecin en France

Pour être mieux remboursé, nous vous conseillons de prendre une assurance maladie complémentaire
